- Weight: 3.3 lbs. (1.5 kgs.)
- Frequency Detection - 15 kHz
- 3 - 9V batteries
- 2 year warranty, limited parts/labor

### Settings

- Discrimination
- Audio Threshold, 10-Turn
- Depth
- Ground Balance, 10-turn

The Scorpion Gold Stinger comes with a standard 5"x10" Crossfire DD elliptical coil, 10" gold pan and instructional video.

The Scorpion Gold Stinger is the cure for today's common Gold Fever! Its world renowned 15kHz Groundhog circuitry has the power to penetrate through heavily mineralized soils to locate nuggets, placer, float and ore veins. Use it when prospecting to sample ore and check "hot rocks" with ease and dependability. Choose between Non Motion All-Metal operation, Motion Discriminate for coin searching or true TR Discrimination to accurately identify or grade conductive ore with the flip of a switch.

The Scorpion Gold Stinger will not let you be fooled by iron rocks, fool's gold, non-conductive specimens or low-grade silver ore!

**NOTE:** The Scorpion Gold Stinger's Control Housing is detachable for use in the belt mount configuration. (Belt not included)
